

NeurIPS 2020 Hide-And-Seek Privacy Challenge

Data Access Request Form and End User License Agreement

The following requirements have been put in place due to i) the need to maintain the competitive integrity of the Hide-And-Seek Privacy Challenge (“the challenge”), and ii) the potentially sensitive nature of the dataset to be provided for the challenge (“HASPC dataset”), which is derived from AmsterdamUMCdb.

Please ensure that all team members have completed one copy of this form each. Each copy must be signed by your team supervisor. Signed forms are to be submitted together by your team liaison.

Team supervisor

Your team’s supervisor should either be a practicing intensivist or a senior professional in machine learning from a recognized higher education institution or a registered company, and must be easily identifiable as such through an online directory, institutional web page or an equivalent source.

During the initial screening process, all supervisors will be contacted directly by the challenge organizers to confirm identity and verify team members. **If we do not receive a reply from your supervisor within one week, your team will not be able to compete.**

Team liaison

Each team will nominate a team liaison, who will complete the online entry process for their team, including submitting all copies of this form signed by other team members and co-signed by the team supervisor. This position does not entail any liabilities or obligations beyond those already specified in the broader End User License Agreement (EULA) below, other than completing this form truthfully and accurately, and corresponding with the challenge organizers on behalf of their team in a timely and transparent manner.

Terms of the EULA

1. We will not share the HASPC dataset or any part thereof, with anyone outside our team.
2. We will only use the HASPC dataset and any results of using the HASPC dataset for lawful, non-commercial, scientific research purposes.
3. We will not attempt to re-identify anyone or anything in the HASPC dataset.
4. We will not disclose the identity of anyone or anything in the HASPC dataset.
5. We will immediately notify the administrators of AmsterdamUMCdb if we suspect that anyone other than us has gained access to the HASPC dataset, or if we suspect that there is any possibility of re-identifying anyone or anything in the HASPC dataset; we will report this in such detail that allows for corrective action.
6. We will deposit all code we write to interact with the HASPC dataset to the AmsterdamUMCdb GitHub repository, or to any other repositories specified by the organizers of the challenge.
7. We agree that the administrators of AmsterdamUMCdb will store our personal data related to this form for administrative purposes, for analytical purposes and to publish these personal data and the results of those analyses online.
8. We confirm that the team supervisor is a practicing intensivist or a senior professional in machine learning who is willing to assist the main applicant in a supervisory capacity.
9. We will delete the HASPC dataset after the competition and acknowledge that our obligations with respect to the HASPC-dataset shall also continue after termination of this agreement for any reason.
10. We accept that having access to the AmsterdamUMCdb database presents an unfair advantage; in that case our team can still compete, but will be excluded from receiving any prizes.
11. We agree that if we fail to meet any of the aforementioned terms, we will immediately be liable to pay to Foundation VUmc, the legal entity of one of the hospitals of Amsterdam UMC, either the sum of ten thousand euros and an additional one thousand euros for every day such failure continues, or the real value of damages, lost profit and potential lost profit incurred by such failure, whichever amount is higher.

Team details

Team name	
Full name of team liaison	

For completion by team members

By signing this form, I indicate that I understand and accept the terms of the EULA, and share the associated responsibilities.	
Intended use	Participation in the NeurIPS 2020 hide-and-see privacy challenge
About you	
Full name	
Affiliation	
Institutional email	
Date signed	
Signature (use Adobe Fill & Sign; do not type your name)	

Reminder: All team members must complete this form. Completed forms are to be submitted together by the team liaison.

For completion by team supervisor

By signing this form, I confirm that I will act as supervisor to the team member above, and that the obligations and liabilities outlined in the EULA also apply to me.	
Intended use	Participation in the NeurIPS 2020 hide-and-see privacy challenge
About you	
Full name	
Affiliation	
Institutional email	
Date signed	
Signature (use Adobe Fill & Sign; do not type your name)	

Reminder: Supervisors must sign each team member's EULA form. We will contact supervisors directly to confirm identity and verify team membership, and will need a reply within a week to ensure that the team is not excluded from the challenge.
